#### **DETAILED ACTION**

- 1. Applicants' IDS of 06/23/2003 has been entered. The Examiner has considered the IDS.
- 1.1 Pursuant to 35 USC 131, Claims 1-23 are presented for examination.

# **Double Patenting**

2. The non-statutory double patenting rejection, whether of the obviousness-type or non-obviousness-type, is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent. In re Thorington, 418 F.2d 528, 163 USPQ 644 (CCPA 1969); In re Vogel, 422 F.2d 438,164 USPQ 619 (CCPA 1970); In re Van Omum, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); In re Longi, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985) and In re Goodman, 29 USPQ2d 2010 (Fed. Cir. 1993).

A timely filed terminal disclaimer in compliance with 3 7 CFR 1. 3 2 1 (b) and may be used to overcome an actual or provisional rejection based on a non-statutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.78(d).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2.1 Instant claimed invention is not patentably distinct from claimed inventions of copending US Patent Application No. 09/941433 although the conflicting claims are not identical.

It would have been **obvious** to those in possession of the claimed invention of copending US Patent Application No. 09/941433 to formulate instant claims 1-23.

This is a provisional obviousness-type double patenting rejection.

## Claim Rejections - 35 USC § 112

- 3. The following is a quotation of the first and second paragraphs of 35 U.S.C. 112:
  - 1. The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled

Art Unit: 2133

in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

- 2. The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 3.1 Claims 1, 9, 16 and intervening claims are rejected under the first paragraph of 35 U.S.C. 112 for failing to describe the manner in which data is compiled/predicted on the unreported factors and for failing to specify what the unreported factors are.
- 3.2 Claims 1, 9, 16 and intervening claims are rejected under the second paragraph of 35 U.S.C. 112. It is unclear to the Examiner how data is compiled/predicted on the unreported factors and what the unreported factors are.
- 3.2 Due to the ambiguities and confusion in all claims, no art has been applied thereto, see In re Steele, 49 CCPA 1295, 305 F.2d 859, 134 USPQ 292 (1962) and In re Wilson, 424 F.2d 1382, 165 USPQ 494(CCPA 1970). The examiner will not speculate as to the intended meaning.
